

pHRaiser

Aqueous neutralizing agent for wastewater treatment

Part No. 090641 // Content: 25l

CLEANING TECHNOLOGY

Made in Germany

Application overview

kolb pHRaiser is designed specifically for sewage water treatment systems, to be added to the wastewater before disposal.

Technical data	
Color	transparent
Odor	neutral
pH-value at 20 °C	14
Initial boiling point and range	not determined
Flash point	not determined
Density at 20 °C	1,11 cm ³
Water solubility	easily soluble
Viscosity (kin.) at 40 °C	not applicable
Application	diluted
Application temperature	20 - 45 °C
Storing frost-free	in original container
EWC key number	060204
CLP / GHS	GHS 05
pHRaiser increases the pH value of the wastewater to a level of about 6 - 8, thus enabling environmentally sound disposal.	

Applications	
Sewage DCB cleaning	++
Sewage PCB cleaning	++
Sewage stencil cleaning	++
Sewage tools cleaning	++
Sewage systems WPSD IU	++
++ = ideal for application, + = recommended, o = optionally applicable, – = not recommended	
Note: The spreadsheet only shows a general overview of the product specifications.	
Cleaning tests are reasonable to determine the optimum cleaner configuration. Such tests may be carried out directly at the kolb demonstration center in Willich / Germany or Shanghai / China or can be initiated by contacting your local kolb partner.
