

3-fold status light

Status light to monitor current status of the cleaning system from distance.

Part number: 0905AQ-10ST

Application

With the status light the cleaning system's status can be monitored from distance e.g. in large production halls. Thus the efficiency of the system / process can be optimized by avoiding undesired and unnecessary stand-stills between operation steps.

The following functions / process steps are shown by the status light:

- System standby
- Cleaning
- Drying
