

## SlideIn unit 3-fold

Speed loading unit for comfortable external loading of three drawer baskets to shorten of machine downtime during loading and unloading

Part number:  
0905AQ7-46SIU

### Application

The three drawer baskets can be loaded outside of the cleaning system, which facilitates handling. If two units are in use, one can be loaded while a filled one runs through a cleaning cycle in the machine.

The loading and unloading then requires only minimal system downtime, since the loaded units can be completely slid in and out.
