FUNCTION PACKAGE

Traceability Comfort

Traceability Comfort collects, documents, saves and archives automatically and / or manually, e.g. serial and batch numbers, quality data, machine data, events, quantities, process data.

Part number: 0900AQ3-17TDT (AQUBE® MV3 ONE)
Part number: 0900AQ5-17TDT (AQUBE® 5 systems)
Part number: 0900AQ7-17TDT (AQUBE® 7 systems)
Part number: 0900AQ8-17TDT (AQUBE® MV8 sTWIN)
Part number: 0900AQ9-17TDT (AQUBE® 9 systems)

Application

Via wireless scanner transfer and backup of process-relevant data in a SQL database (Microsoft SQL Server 2017, Express, free download version) with DataLogger (on a system-integrated PC).

Visualization of the data in an edited table on the traceability monitor

Data transfer of the following information:
- Quantity and marking of cleaned assemblies / products / cleaning goods
- Scan data: max. 50 characters ASCII code, European 32-127
- Date / time of the process start
- Temperature of the detergent (requirement: corresponding system configuration)
- All process-relevant times
- Quality of the rinse water in µS (prerequisite: corresponding system configuration)
- Drying temperature (requirement: corresponding system configuration)
- Error messages during the process
- Date / time of process end
- Information about the cleaning medium

Function package - Components
☐ Integrated industrial PC with Intel processor
☐ In the right side door of the system integrated retractable touch monitor
☐ Wireless handheld scanner for data matrix and barcode
☐ Interface software from the system PLC to SQL database

Standard in the system	Option ex factory	Retrofittable	Incompatible
