

Rotor QuickConnect

Quick-action rotor clamping system for inserting or removing the middle horizontal rotors in **kolb** AQUBE® and PSE systems.

Part numbers:

0905AQ5-23QC (for AQUBE® / PSE 5) up to one rotor

0905AQ7-23QC (for AQUBE® / PSE 7) up to two rotors

0905AQ9-23QC (for AQUBE® / PSE 9) up to three rotors

Application

With the QuickConnect rotor speed clamping system, the horizontal center rotors of a **kolb** cleaning system with horizontal rotor technology can be installed or removed within a few seconds. In general, the closer the rotors are to the goods to be cleaned, the more positive the nozzle pressure effects the cleaning speed and quality.

However, if goods to be cleaned require more headroom than the normal rotor arrangement allows, the center rotors can be easily removed using the quick-release system.

The rotors for smaller goods to be cleaned can be installed again just as quickly, which guarantees the optimum flexibility of the cleaning chamber.

Compatibility

		AQUBE® LH5
		AQUBE® LH7
		AQUBE® XH5
		AQUBE® XH7
		AQUBE® XH9
		AQUBE® XV7
		AQUBE® XV9
		AQUBE® PH7
		AQUBE® MH5
		AQUBE® MH7
		AQUBE® MH9
		AQUBE® MV8 sTWIN
		AQUBE® MV9 QUAD
		PSE LH5
		PSE LH7
		PSE LX9
		PSE MH5
		PSE MH7
		PSE MV8 TWIN
		PSE 300 2HY
		PSE 300 2VL
		PSE 300 2HD
		PSE 300 VL-RS
		PSE 300 VS
		PSE 300 HD
