

Remote maintenance

Online maintenance helpline to **kolb** service engineers for fast software data analysis, maintenance, instructions and monitoring assistance.

Part number:
0905AQ-91RM

Application

For maintenance and / or programming and setting tasks - **with the agreement of the operator** - **kolb** service engineers can connect to the remote maintenance module via an existing network connection and, by reading out the data, provide the customer with specific support for settings / troubleshooting, etc.

Direct system entries into the system software can only be made by the operator.
