

XL-Power unit

High-power pump unit for increased liquid volume and spray pressure

Part numbers:
0905AQ5x-9XL (AQUBE® / PSE systems)
0905PSE3-9XL (PS300 systems)

Application

When cleaning PCB assemblies, especially with closely packed and / or a large number of fragmented layers and structures or screens and stencils with densely crowded small apertures, it may be necessary to increase the spray and volume pressure with an high-power pump unit.

This shortens the cleaning time and increases the cleaning efficiency of complicated built, fragmented products.

Compatibility

AQUBE® LH5
AQUBE® LH6
AQUBE® LH7
AQUBE® XH6
AQUBE® XH7
AQUBE® XH7 TZD
AQUBE® XH9
