

## XXL-Power unit

Ultra-high power pump unit for increased liquid volume and spray pressure

Part number: 0905AQ79XL

### Application

When cleaning PCB assemblies, especially with closely packed and / or a large number of fragmented layers and structures or screens and stencils with densely crowded small apertures, it may be necessary to increase the spray and volume pressure with an high-power pump unit.

This shortens the cleaning time and increases the cleaning efficiency of complicated built, fragmented products.

In all **kolb** superlarge (= x9) cleaning systems the XXL pump unit is a standard.

#### Compatibility

	AQUBE® LH5
	AQUBE® LH6
	AQUBE® LH7
	AQUBE® XH6
	AQUBE® XH7
	AQUBE® XH7 TZD
