

Slide-in unit 4-fold

Speed loading unit for comfortable external loading and shortening of machine downtime during loading and unloading

Part numbers:
0905AQ9-47SIU (AQUBE® XH9, PSE LX9)

Application

The four drawer baskets can be loaded outside of the cleaning system, which facilitates handling. If two units are in use, one can be loaded while a filled one runs through a cleaning cycle in the machine.

The loading and unloading then requires only minimal system downtime, since the loaded units can be completely slid in and out.

Compatibility

		AQUBE® LH5
		AQUBE® LH7
